

To Whom it May Concern,

I am writing to ask you to vote NO on HB5263. I am appalled and disgusted to even see this as an option to vote for anything that would bring any sort of factory like farming to the state of Connecticut. All factory farm should be outlawed and for anybody considering in favor of such a heinous bill you will be setting CT back from the rest of the country and even the world. Rabbits are now the 3<sup>rd</sup> most common pet and many steps are being taken around the world to secure the safety and wellbeing of these beautiful animals.

VOTE NO on HB5263

Thank you

Michelle Lynn
